

# Protect Your Business

## Involta + Veeam Backup and Recovery Services

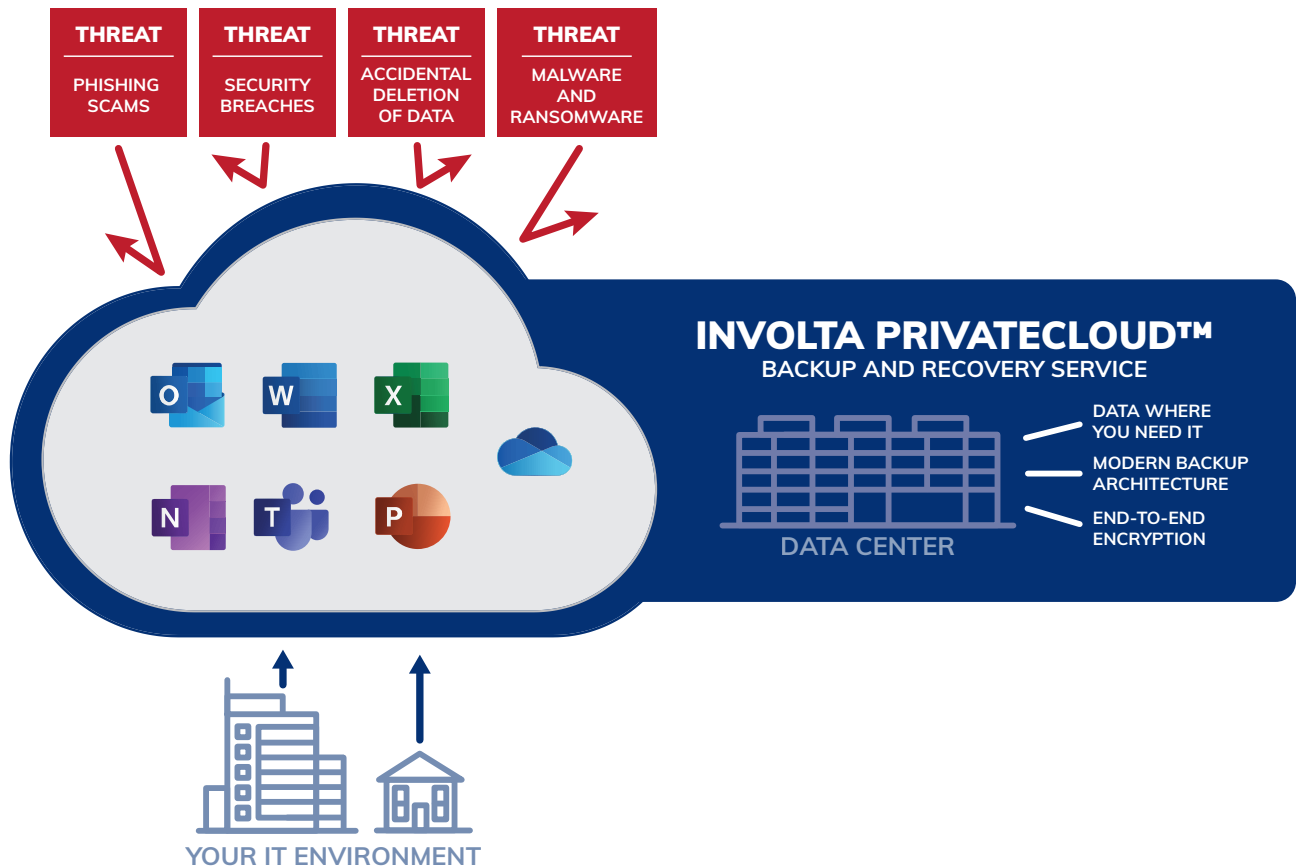

No digital transformation is complete without moving programs, services, and data to the cloud. Microsoft Office 365 is a full suite of cloud-based business solutions designed to make your team more productive. It's an approachable component of a digital migration, and when paired with comprehensive backup and recovery services, it's the full package.

Whether you're using public, private, or hybrid cloud infrastructure, you're adopting some level of risk. You need a better solution. Involta can help you Get There.

### What's at Risk?

- ✔ Security Vulnerabilities
- ✔ Data Loss
- ✔ Business Continuity
- ✔ Compliance Issues

Involta can help you Get There.
