

# Modern Workplace

Empower your employees.  
Transform your world.

A modern workplace is bold, transformative, collaborative and flexible. It must cater to employees' evolving needs without compromising your organizations' commitment to cybersecurity. It's a delicate balance—one that requires the right technology deployed at the right time.

Involta is proud to be a leading Microsoft Cloud Partner with knowledge and expertise around Microsoft 365, Enterprise Mobility & Security, Endpoint Management, Purview and Windows 365. Our ability to leverage insights from our comprehensive managed and consulting services allows us to help you envision, architect and deploy all parts of the Microsoft 365 suite.

Trust us to help you migrate, build, manage and support your growing organization's investment in the Microsoft products you and your teams depend on every day.

## Microsoft 365 for Your Organization

Microsoft 365 is an integrated solution bringing you the very best-in-class productivity of Office 365 with advanced security and device management capabilities to help not only streamline your IT systems but safeguard your organization.

### Do More

- ✔ Create your best work with Office 365 tools
- ✔ Use enterprise-grade email and calendaring services
- ✔ Access your files from anywhere
- ✔ Integrate with other common apps
- ✔ Manage and secure your endpoints using Microsoft Intune

### Work Better Together

- ✔ Bring teams and resources together with Microsoft Teams
- ✔ Connect with customers, coworkers and partners
- ✔ Host online meetings
- ✔ Increase collaboration and productivity
- ✔ Work anywhere from any device

### Safeguard your Data

- ✔ Protect your organization against security threats
- ✔ Help secure your data from accidental leaks
- ✔ Control access to your organization information
- ✔ Remain compliant with integrated tools

## The Involta Difference

A successful go-live is about much more than the configuration and data migration, it's about the adaption of the tools that people use every day. We don't just deploy a solution and hand you the keys. We integrate comprehensive training and support to ensure that end users know how to make the most of the solutions. Think of us as an extension of your IT team here to assist whenever you need us.

### 365 Assessment

Most organizations use Microsoft products, often not to their fullest potential.

Our comprehensive 365 Assessment examines the full scope of your current solution and uncovers real opportunities for continuous security and utilization improvements.

### Professional Services

Who needs access to which programs? What security protocols should be put in place? Which Microsoft solutions should be deployed and when?

We can help with all this and more when we take the reins on implementing the right Microsoft 365 solutions for your organization.

### Training + Support

After implementing a solution, end-users often have questions. We include a period of support with all professional services to help with the transition during this crucial time.

And once up and running, we are here to help with Managed Support services or a dedicated block of support hours. We can also provide 24/7 support.

## Let's Drive Creativity, Collaboration and Innovation Together.

As a leading Microsoft Cloud partner, the Involta team is driven to help you get the service you need whenever you need it. Contact us today to learn more.
